It is the most sure and speedy cure for Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds that was ever introduced in the Materia Medica. THE UNK WEEL REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

POWERFUL TONIC. Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus Building up and Strengthening the system, while at the same time the volatile principle, being absorbed in the blood, acts specifically on th

Rheumatic Poison, removing it from the cir-culation and system. There are a few remedies known to the Medical Profession which will remove the theumatic Poison from the blood, but whose action is so powerful in depressing the sys-tem of the already enfectled Rheumatic pa-tient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent, and in consequence heretofore incurable disease. Unlike these Medicines, already

UNK WEED REMEDY. though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong Tonic and recuperating element which admits of its continued use even by the most Delicate and debilitated. Thursday, March 14, 1872. Roads and Contracts.

There was a somewhat lively debate in the House on Tuesday upon the motion of Mr. Humphreys for "an address FAMILY BUTCHER to his Excellency the Lieutenaut Governor, praying that he may be pleased to order that all repairs and maintenance required on the public roads of this Province be done by contract." The principle of giving out public works by contract is generally acknowledged to be the best and cheapest method of having such work performed. It is very seldom that even private individuals act upon THE CANADIAN TARIFF any other principle, when work is required to be done involving any considerable expenditure of money. The almost invariable practice is to call for tenders, and to let the work to whoever will do it cheapest, other things being equal. The motion of Mr. Humphreys was at once so reasonable and so proper Correct Copies of the Canadian that we fully expected there would be an almost unanimous vote in its favor. The reception that it met in the House, therefore, we must say surprised us, as we doubt not it did surprise the public generally. That the cost of keeping the Mainland Truck Road in repair is very much greater than there is any necessity for, will readily be admitted by all who have given the subject any attention and are in a position to express an unbiased opinion. It is a well known fact that public works done under the supervision of Government agents, without being let out to public competition, are not only very much more expensive, but also as a rule not so well performed as This they would be were they so let. The Cariboo road is no exception to the rule. We have it from parties whose opinion is entitled to respect and confidence that instead of that road being a tax upon the exchequer to the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of from \$30,000 to \$40,000 per constant and the extent of the extent of from \$30,000 to \$40,000 per constant and the extent of the ex parties whose opinion is entitled to respect being a tax upon the exchequer to the extent of from \$30,000 to \$40,000 per annum and upwards for repairs, if the work of keeping it in repair were let by public competition for periods, say, from three to five years, it would be better looked after and kept in better repair than it now is, for one-half the money. In Canada, for instance, where both systems

In the production of nue periods will only be needed when ores and quartz are in question.

The importance attached to this Machine is, that it is not applicable to one object only.—Its advantages may be summed up thus:—

1st.—The crusher consists of a horizontal ram, mounted loosely on an eccentric, by means of which a crushing and grinding movement is attained.

2nd—The material is reduced to its required size by simply setting the fixed face.

3rd—The two acting faces are moveable, and can be replaced in a few minutes at a trifling cost, which does not amount to one hundredth part the cost and trouble of rollers.

Tenders to be marked C. P. Of our own knowledge such has been the practice for twenty years past with regard to several of the leading trunk thoroughfares in the Province of Ontario, of which what is known as the old Kingston road, between Toronto and Kingston, the Hamilton road, between Toronto and Hamilton, and the Goverare notable instances. The work of used to cost when under Government control and the supervision of Road Commissioners. We have no sympathy whatever with the views expressed by hon, members that the Government should be left untrammelled in the man agement of the public roads throughout the Province. Such reasoning on the part of gentlemen pledged to give a blind support to the Administration—so bound by party considerations as to make the public interests a secondary in Liquidation. matter where party purposes are to be subserved-is not so much to be wondered at ; but coming from gentlemen occupying is dependent positions in the House, whose paramount duty they claim. is to legislate for the interests of their constituents and to see that the revenues of the country are as economically expended as a due regard for efficiency in the administration of public effairs will justify, we confess there is ground for sarprise to say the very least. The Government can have but one object in keeping in their own hands the work of constructing and repairing roads and bridges throughout the country, and that is the influence which the patronage they have thus to bestow gives them. Let anyone just imagine the influence that the Chief Commissioner of Lands and Works has it in his power to wield over Frame House 24x30, Cooper Shop, Sheds, &c. the whole extent of country from Yale to Cariboo, by virtue of his official connection with the trunk road and the various other roads and trails in the upper country, as the head of that department to which all applications for road work are directed, and all appointments of overseers, engineers, etc., made Mr. Walkem will emphatically be king in the upper country, and whoever would receive favors from the department over which he presides, must bow to him "the pregnant hinges of the knee." We can mb12 plainly see that the disposition of the government is to hold fast the patronage in their own hands, for therein lies their strength. In that way they will be able to command support, that neither the prudence of their policy nor the wisdom of their acts would otherwise entitle them

HAVING JUST RECEIVED FROM Superior Dyc Stuffs, to receive; and we have only to express regret that there are so many gentlemen in the House disposed quietly to acquiesce in a system that cannot but be detrimental to the public interests. It was clearly shown by several of the Island members, representing rural constituencies, that under the present system the Government appropriations for roads and repairs in their districts are largely frittered away in travelling and other expenses of persons in Government employ, which could just as well be saved and laid out upon

Returns of correspondence, etc. of the jail, were laid before the House. QUATSINO LAND BILL.

Mr. Robson moved the first reading of the Quatsino Land Bill. Carried. Second reading was fixed for Friday. THE Q. C. I. COAL PERMIUM.

Hon. Col. Secty, moved that the Governo-'s message be taken into consideration at once.
The Clerk read the correspondence which was in effect that the liquidators and representatives of the Company had asked for the premium of £500 offered to be paid by the Local Government of B. C. of 1864, for the first 200 tons of coal shipped to a foreign port. The Secretary of State appeared to think the offer of the premium should be confirmed by the Government of this Province ; the Governor invited the consideration of the Local Legislature thereto. The correspondence was very voluminous; it embraced letters to ex-Colonial Secretary Hankin, the Secretary of State for the Colonies; from the latter to the liquidators and representations of the Company, etc., before and since

the Company went into liquidation.

Mr. Humphreys would suggest that the matter be referred to a Select Committee. Hon. Colonial Secretary in order to obtain legal evidence of tacts moved that the matter be reterred to a Select Committee in order to obtain necessary evidence, and moved that the Committee be Messrs. Hunter, Semlen Walkem, Hughes and C. Booth.

Mr. Semlin thought the payment of the premium was a matter for the Dominion Government. The Attorney General said the question now was to determine the debt. Resolution carried.

STATE OF N. W. PRISON . Mr. Humphreys moved that the returns with regard to state of the New Westminster

The bill was read a second time, and ordered to be considered in Committee of the Whole on Monday next.

INDEMNITY TO MEMBERS. The report of the Committee of Indemnity to Members was received and adopted. THE SCHOOL BILL.

On motion the House went into Committee of the Whole on the School Bill. Mr. Robin-The resolution proved a tie—11 to 11.

Mr. Robson objected in that a member who was absent on the division, had taken the division, had taken the division, had taken the division one to seven passed without amendment.

amend by striking out the first line, so as to

give the power of appointing teachers to the ... Trustees, and not to the Board of Education. This motion gave rise to considerable disccusion for and against, which was finally rejected, and the clause passed as read. Sub-sections of clause 7, from 9 to 13 inclusive, were then passed with slight amend-

On motion the House rose for recees, to sit again at 7½ p. m.

AFTER RECESS. The House resumed its sittings at half past ven o'clock.

The Speaker vacated the chair and the louse went into Committee of Whole on the Amendments offered to section 10, were withdarwn. Clauses up to and including 21 were passed. Dr. Ash moved an amendment to section twenty-two, to the effect that no sebool

trustees shall be clected without consent given in writing. Lost.

Mr. C. Booth moved an amendment to sec-31 defining the duty of trustees: that the trustees be required to inquir into the treat-ed and inspected the steamer Prince Alfred esponsible for their treatment. Lost.

To clause 35, providing for those who shall be deemed visitors of public schools, several amendments were suggested. Mr. Robson proposed that editors in par-

ticular and others who take interest in education should be allowed to visit. Mr. Bunster wished to exclude all clergymen and to permit parents; some honorable gentlemen desired to expunge the clause alogether Hon Attorney General proposed to leave the power in the hands of the Board of Edu-

cation, as to those to be allowed to visit the schools. Mr. Humphreys would place the power the hands of the trustees. Hon. Mr. Walkem didn't agree that only udges, clergymen, members of the Legislature should be the only favored ones, but he hardly knew where to draw the line of dis-

Dr. Ash offered an amendment to leave its disposal in the hands of Trustees. Mr. Armstrong, from experience, was o say that there need be no danger of a rush of visitors; at the present time, he would not make an invidious distinction. Amendment of Mr. Robson "and others nterested in education" to be added after 'members of Legislature' was finally agreed

to, and the clause passed as amended. Clause 36, penal clause-passed. Clause 27, providing for levying and collecting fines and foreitures-passed. Clause 38, title clausepassed. On motion of Dr. Ash, clause 4, in respect of Supdt. of Education, was moved to be recommitted. On the choice of the Superintenden

depended mainly the success of public schools in this Province, and he wished to see the Governor in Council untrammelled. Hon. Mr. Walkem agreed that to limit the qualificafion by certain little technicalities was very unwise. The qualification imposed the better; leave the matter to the Governor in Council. Hon. The New School Bill.

EDITOR STANDARD:-I notice in your report f the proceedings of the Legislative Assemb ly, in respect to the School Bill, that an important amendment was carried in Committee restricting the appointment of a Superintendant, to a teacher of at least five years stand Mr. Smithe gave notice he would ask the Bourchier. They would probably blow the and consideration to the subject of education fascinating as Miss Winchester may be Province is concerned, and that unless great they will have had to pay too dear a price care be given to this appointment, this Bill, like its predecessors, will be very liable to Tuere should be no personal favoritism, and every latitude should be given to the appointing power, so that the function-ary on whom will devolve the responsibility f making free schools in British Columbia remain at New Westminster until the return of the Onward from Yale; and will probably difficult for you, Mr. Editor, to point out any arrive here on Sunday morning. Among the passengers we observed Messrs. G. Leg-practical experience in the working of the school system,—for his recommendation of a good man of modern capabilities and experright direction. Such an appointee would be the best judge as to the ability and usefulness of teachers, and would at all times be of infinite assistance to the proposed Board of Education. Far be it from me to disparage the application for the post, of any gentleman here, by the above remarks, but a sole desire to make Mr. Robertson's Bill success-"right man in the right place."
